

Certificate of Appreciation

JOHN WATTS

During his years of professional service to Senator Dianne Feinstein, John Watts has successfully promoted safe and resilient water supplies for the people and environment of California.

He has been a pivotal advocate in Congressional negotiations that have helped improve water policies for the Nation.

John's spirit of inclusion and collaboration have been essential in advancing key public policy and infrastructure funding priorities for EMWD.

EMWD extends our utmost appreciation for the work that John Watts has done to improve water resilience and quality for EMWD, California, and the Nation.
